

Minutes, Hampton Mosquito Control Commission meeting of July 30, 2013
at Lane Memorial Library; called to order at 7:06pm

In Attendance: Commissioners Ann Kaiser & Richard Reniere

Absent: Commissioner Russ Bernstein

Richard reported that he and Larry Marsolais, the vendor from whom the Greenhead Trap Tent was purchased, inspected the tent and concluded that the door could be replaced. The vendor then checked with his supplier, and quoted a price of \$302.50 for a new door, including installation. Richard moved that, if at the end of August there is enough money left in the budget, the door should be purchased. Motion seconded and passed.

Richard next reported that there were a lot of damaged traps in the storage area at the Public Works facility, and that he had spoken with both the Public Works director and the Town Manager about getting some help from Public Works with removing any traps that cannot be used for spare parts in repairing the traps currently in use. Since the response was positive, Ann will contact Dragon Mosquito Control to have the traps sorted out when they are being brought in off the marshes, so that there can be a designated "scrap pile" for Public Works to haul away.

The Commission has not yet received a quote from DMC on the cost of new Greenhead Fly traps, but Richard reported seeing a different type of trap at a golf course, and is trying to obtain some information about it. More information from both sources will be needed before a decision can be made about replacing worn-out traps, most of which have been in service nine seasons, and some even longer.

Meeting was adjourned at 7:26pm

Ann Kaiser, HMCC
